OUTDOOR FITNESS EQUIPMENT FOR PARKS & RECREATION

OUTDOOR GYMS FIT FOR PARKS

Outdoor-Fit's unique multigym design incorporates real exercise and safety in a completely weatherproof, tamperproof, and compact design.

Our equipment complies with the ASTM safety standard for outdoor fitness equipment (F3101-21a) and offers adjustability where needed. Outdoor-Fit is the perfect choice for unsupervised areas and people of all ages and fitness levels.

THE BENEFITS FOR PARKS AND REC PROFESSIONALS

UNIQUE DESIGN FEATURES

Over 80% of the population can't do a bodyweight chin-up. Therefore, most outdoor chin-up stations are unusable by the general population. Our unique chin/dip assist mechanism assists users by taking away a percentage of their body weight, allowing them to complete reps, and build muscle.

LIFETIME PROJECT COSTS

When choosing outdoor fitness equipment for your park, understand what is and isn't covered under the manufacturer's warranty, what ongoing maintenance will be required, and the quality of steel, hardware, and paint used. Our equipment has been tested in the world's harshest environments, proven to stand the test of time and keep maintenance costs low.

MORE FITNESS, LESS SPACE

Our multigym design packs a lot of exercise value into a compact footprint. Fit an APOLLO Multigym (19+ exercises) and two EVEREST Cardio Climbers on a 20'x20' pad.

REAL EXERCISE DELIVERS REAL RESULTS

Our exercise stations are biomechanically correct and are comparable to what you would find in a commercial gym, therefore delivering real fitness results. Users will be more inclined to return to the site if the outdoor fitness equipment delivers real results, like equipment they would use indoors.

100% WEATHERPROOF

All our products are built to last. Built from heavy gauge steel and aluminum and painted with super durable polyester powder coat to ensure equipment can hold up in any climate and environment. Unlike other companies, our 15-year warranty is applicable in every climate.

OUR EQUIPMENT LOOKS DIFFERENT BECAUSE IT IS DIFFERENT.

OUTDOOR-FIT
exercise systems

This isn't playground equipment for adults.

This is commercial grade indoor fitness equipment built for the great outdoors.

Outdoor-Fit Exercise Systems has been a leader in biomechanically correct gym quality equipment since the early 2000's.

We take a unique approach to outdoor fitness. To build products that offer the same exercise results found in commercial gyms, that last for years in any outdoor environment, and that keep your footprint small to maximize space - they have to look different. With a 15 year warranty and a wide selection of multigyms and purpose-designed single exercise stations, take a look at something different - take a look at Outdoor-Fit!

APOLLO

MULTIGYM

With a proven history of durability and performance, the APOLLO is becoming a favorite of correctional facilities as well as busy outdoor fitness park installations.

Real Fitness Equipment for Real Results

The APOLLO Multigym takes the basics of indoor commercial fitness equipment and delivers it to the outside world in a tamperproof, durable, and weatherproof package.

Compact, cost effective, and completely safe, the APOLLO is designed for any fitness level or ability.

 **TAMPERPROOF.**  **WEATHERPROOF.**  **SAFE.**

POPULAR PULLEY STATION

The APOLLO features the popular HI-LO pulley station for a variety of standing or seated exercises. Our unique, tamperproof selectorized weight stack allows users to adjust weight between 10 and 100lbs. Locking safety features also eliminate pinch points or entrapment zones typically seen on selectorized weight stack systems.

19+ DIFFERENT EXERCISES

The APOLLO is designed with over 19 different exercises, offering a full body workout.

With adjustability where needed and our unique chin/dip assist mechanism, the APOLLO Multigym is suitable for users of all fitness levels.

5 SIMULTANEOUS USERS

The APOLLO helps you make the most of your space, with up to five people using the equipment at once.

The APOLLO is built to maximize indoor or outdoor exercise areas, with over 19 exercises available:

Introducing the HELIOS-NA.

Our original HELIOS Multigym, but without moving parts, and over 11 different exercises!

Real Fitness Equipment for Real Results

The HELIOS-NA Multigym takes the basics of indoor fitness equipment and delivers it to the outside world in a tamperproof, weatherproof, and durable package.

Compact, cost effective and completely safe with no moving parts, the HELIOS-NA is designed for any fitness level or ability.

 **TAMPERPROOF.**  **WEATHERPROOF.**  **SAFE.**

ABSOLUTELY NO MOVING PARTS

The HELIOS-NA is built with absolutely no moving parts. It offers the same exercises and features of our original HELIOS multigym, without the assist mechanism. In its place is a fixed "assist lip" to still provide assistance for chin ups and dips.

11+ DIFFERENT EXERCISES

The HELIOS-NA is designed with over 11 different exercises, offering a full body workout.

With adjustability where needed, and functional fitness stations like our 16" plyo box, the HELIOS-NA is suitable for users of all fitness levels and abilities.

MAINTENANCE FREE

The HELIOS-NA is a durable, compact, and real exercise outdoor fitness multigym that can withstand any climate or environment. Unsupervised areas such as public parks choose the HELIOS-NA because of its easy installation, zero maintenance design and 15-year warranty.

The HELIOS-NA is built to maximize indoor or outdoor exercise areas, with 11 exercises available:

The VERSA brings our trusted HI-LO pulley system into a stand-alone unit, providing a flexible workout with over 8 exercises in a small footprint.

Real Fitness Equipment for Real Results

The VERSA HI-LO Pulley System is a tamperproof and weatherproof indoor/outdoor fitness machine featuring the Apollo's popular HI-LO pulley station that provides a biomechanically correct workout in an extremely small footprint.

 **TAMPERPROOF.**  **WEATHERPROOF.**  **SAFE.**

TRUSTED PULLEY STATION

The VERSA provides the popular HI-LO pulley station for a variety of standing and seated exercises. Our unique, tamperproof selectorized weight stack allows users to adjust weight between 10 and 100lbs. Locking safety features also eliminate pinch points or entrapment zones typically seen on indoor selectorized weight stack systems.

VARIETY OF MOVEMENT

The VERSA provides a full body workout by allowing the user to easily change the angle and level of resistance in over 8 exercises.

This makes many different exercises easy to set up and perform for a variety of user abilities, including for those using a wheelchair.

SMALL FOOTPRINT

The VERSA helps you make the most out of your space! Get a full body workout even with the VERSA's footprint dimensions of only 20" x 15".

The VERSA is built to maximize indoor or outdoor exercise areas.

The EVEREST Cardio Climber is a tamperproof and weatherproof indoor/outdoor cardio fitness machine that provides a biomechanically correct cardio fitness workout.

Real Fitness Equipment for Real Results

The EVEREST Cardio Climber takes the basics of indoor fitness equipment and delivers it to the outside world in a tamperproof, durable and weatherproof package.

Compact, cost effective and completely safe, the EVEREST is designed for any fitness level or ability.

 **TAMPERPROOF.**  **WEATHERPROOF.**  **SAFE.**

CORRECT EXERCISE BIOMECHANICS

Unlike many outdoor cardio fitness machines, the EVEREST is designed with proper exercise biomechanics to ensure user safety and reduce the risk of injury.

The EVEREST fits almost any user ages 13+ with no adjustment needed.

TWO EXERCISE MODES

The EVEREST Cardio Climber mimics climbing a set of stairs in a continuous motion and allows the user to choose between strength or cardio training based on foot positioning.

The resistance and workout intensity is determined by the user's cadence and stroke range.

REAL EXERCISE VALUE

Continuously climbing stairs is one of the most intense and effective cardiovascular workouts someone can do.

With the EVEREST, users of all fitness levels will get an intense and effective cardio workout.

The EVEREST Cardio Climber is built to maximize indoor or outdoor exercise areas.

STRENGTH MODE

Targets: Glutes, Hamstrings, Cardio

Make sure entire foot is on each foot pad, maintaining heel contact

Keep upright posture and use handgrips for support

Move foot pads in slow, controlled movement, maximizing stroke range without “banging” into top or bottom

Keep pads moving in a continuous “lunge” motion, focusing on keeping heel in contact with foot pad during stroke

Increase cadence as you feel comfortable to maximize exercise value

CARDIO MODE

Targets: Cardio, Calves, Hamstrings, Glutes

Place the ball and arch of foot on respective foot pad

Keep upright posture and use handgrips for support

Begin moving foot pads, keeping pressure on the balls of your feet

This should feel as though you are running up a flight of stairs

Increase cadence as you feel comfortable to maximize exercise value

For best results, complete a HIIT workout

TECHNICAL SPECIFICATIONS

Width: 30" / 77 cm

Length: 46" / 117 cm
